

## Agile Project Leadership - Training Course Outline – 2 Days

For anyone faced with managing an agile project who is dissatisfied with the training offerings from companies “jumping on the agile bandwagon”. This practical two-day course provides no-nonsense agile leadership guidance gained from Mike’s 14 years of agile methods experience. By combining case-studies, instruction, and exercises, the key tools for effective agile leadership are covered in this fast-paced, informal class.

### **ABOUT THE TRAINER**

All Leading Answers training courses are taught by Mike Griffiths with no substitutions. Mike was involved in the creation of the agile method “DSDM” in 1994 and has been using agile methods (Scrum, XP, FDD, and DSDM) in a variety of business and technical domains for the last 14 years. He is active in both the agile community and traditional project management circles. Mike serves on the board of the Agile Alliance and the Agile Project Leadership Network (APLN). He was a contributor to the PMBOK v3 Guide and is a trainer for the PMI SeminarsWorld program.
