

Agile Project Tracking and Reporting - Training Course Outline – ½ Day

The iterative nature of agile projects introduces new challenges and opportunities for tracking and reporting agile projects. On the one hand are the scope-creep fears and lack of lifecycle understanding experienced by many project stakeholders, on the other hand we get many valuable early-trend and feedback metrics from using an agile approach. This course explains how to track and report on agile projects using powerful, easy to create reports and graphs.

COURSE COMPONENTS

HOW YOU WILL BENEFIT

- Learn how to track agile projects with more insight and less team intrusion
- Gain practical examples and templates for reporting agile project status to stakeholders
- Learn how to choose appropriate metrics that will not have counter productive side effects

ABOUT THE TRAINER

All Leading Answers training courses are taught by Mike Griffiths with no substitutions. Mike was involved in the creation of the agile method “DSDM” in 1994 and has been using agile methods (Scrum, XP, FDD, and DSDM) in a variety of business and technical domains for the last 14 years. He is active in both the agile community and traditional project management circles. Mike serves on the board of the Agile Alliance and the Agile Project Leadership Network (APLN). He was a contributor to the PMBOK v3 Guide and is a trainer for the PMI SeminarsWorld program.
